Not an afternoon or evening reception looms up on the fashionable horizon. Not a debu-tante function has been arranged. One—and one only—engagement luncheon is chronicled; but, alas! even that is two weeks hence. Really the outlook is a trifle de-

______ never so much as glance at each other dur-ing the ceremony, but keep their eyes fixed

on the parson as if it were he that they were taking for better or worse? "But it was different with Daisy and Harry. They looked steadily into each other's eyes during every word of the ceremony and made all the promises to each other,

really, in just the nicest way! "And then when they knelt down for the benediction Harry put his arm right around his little bride, under her yell, so tenderly, don't you know? We were all quite touched. It was unusual and seemed to show so thor-oughly that he was just about the happiest

man alive." Walter Jones, who played at one of the local theaters last week, created consider-able interest in town by driving about on the pleasant afternoons of the week with

his new bride in a bixurious Victoria, the lady attired in the most claborate and mod-ish of afternoon toilets. Mrs. Jones was, until her marriage this Summer with the comedian, Mrs. Pulsifer of Chicago, and probably the most talked-of young matron in the Windy City's smart set. Her brother was W. R. A pretty little story, with Mrs. J. L. P.

Morrison as the central figure, came along the other day.

The scene of events was a luncheon which some West End woman of fashion gave a short time ago for a visiting guest. There The Schumann Club held a meeting October 1 at the residence of Mrs. Jacob Gross, No. 443 Olive, and elected Mrs. Maude E. Truitt president, Miss Maria Sinton secretary. The luncheon progressed mer-rily until saind arrived. Then somebody mentioned the C's. Now the C's, as everybody knows, are on the polity of getting a divorce.

Williamson Howard's death last week from typhold fever was a fearful blow to the West End young people who had come to regard him as one of the pillars of their social structure. There was no man in town who was more generous in his attentions to his girl friends; or one who contributed more to the general good time of the set. No especial girl was ever singled out for Mr. Howard's undivided devotion, but he was the "best man friend" of many, with all that the phrase implied. They relied on him at all times, and they were never disappointed; for he invariably did his best to serve them.

"I was the last girl to go anywhere with Will Howard," said a sweet maid near Grand avenue the other day. "He came out last Saturday night and urged me to go to the theater with him, saying that he has been cooped up in the house so long that he simply must have some diversion. He seemed so fill that I demurred, but he invited, so we went. All that evening he really should not have been out of the house, for I remember as his hand touched mine when he said good-night that it was burning hot with fever. He was so serious that night. I shall always recall it, but I thought it only because an lilness usually makes most people think on the sober side of things. I did not imagine then that this would be our last evening together."
